The new members will be involved in a handover early next term at which point they formally become the new Camps Bay Primary School SGB.

Thank you to the candidates who were not elected for putting yourselves forward. This is appreciated and we hope that you will still find a way to share your knowledge and wisdom with our school.

Thank you to all our parents who participated by voting. Your commitment and time are greatly appreciated.

SOLAR POWER AND LOAD SHEDDING SOLUTION FOR PRIMARY CAMPUS

Great news for the Grade 3 to 7 learners and teachers is that the load shedding solution for the campus has been approved by the SGB and the finance is in place.

The tender for the installation was awarded to

Urbaneden who will begin work once the final permission is given by the WCED.

The installation will not only provide a solution to load shedding, but also generate power to assist in lowering the electricity costs for our school. It is estimated that the savings will pay for the installation over a reasonable period of time, after which the savings become more advantageous for the school.

We are very grateful to our SGB for the work that has gone into making this project a reality. It is a legacy they leave with the school. We could not have completed this project without the very kind assistance of Rob Timmis whose expertise and experience with this kind of project has proved invaluable.
