- Paddle tournament and braai 4 Nov
- Be Inspired – Prof. Nic Spaull – 23 Nov
- Budget Presentation – 23 Nov

Those who attended the “Be Inspired” talk last night were treated to a world class presentation which will not be forgotten. The violin performance by Muzukidz was simply brilliant. Muzukidz changes the lives of children from all cultural and economic backgrounds in South Africa through music, and Carina is passionate about the work they do.

Carina then took us on a journey which had the audience mesmerised. From the rule following nerd at school to the musical maverick who pushed the boundaries of global musical performance, to the swimmer who has conquered most of the toughest and most daunting swims in the world. Her grounded and authentic approach in spite of the fame she so deservedly accrued was so appreciated. Thank you, Carina!

The MUZUKIDz doing their thing! If you ever want to understand how music and passion can change lives, then you need to look at these young people. They were incredible! Thank you to Maria Botha and the MUZUKIDz for the brilliant performance to kick off our 4th “Be Inspired” Talk.

WHAT IS HAPPENING AT CBPS?

LESS CLASSES? LESS STAFF?

We will be sharing news about these and other important decisions for next year at the Budget Meeting. Professor Nic Spaull will be giving us some of his views on education provision in SA. He is a thought leader in the field and will set context for the budget presentation thereafter.

New Strategy

We are excited about the path the school is taking and I encourage as many parents as possible to attend the budget meeting to share in our journey. There are some bold and significant changes being implemented in order to ensure sustainability and improve quality in all we do. We look forward to seeing you there.

23 November at 17h30 for Professor Nic Spaull and then the Budget Presentation

Creating complex 2D shapes using Number Sense attribute blocks.

Attribute blocks support the development of reasoning; the understanding of shape and the properties of shapes; and are used in activities that involve sorting, pattern completion and extension.

We have adopted Number Sense as our programme of choice in our school because it supports the development of a solid sense of number and a deeper understanding of mathematics. The programme is responsive to the developmental needs of children and how children learn mathematics.

FROM THE SPORTS OFFICE

It often is the case that fine margins are what separates the winner from the loser, from happiness and despair. These fine margins are something that we have to pay close attention to as that ultimately is how we can take our sport to the next level.

On that note, we are delighted to be working with George Joubert who is part of our athletics programme for the foreseeable future. George joins us every Tuesday and Thursday morning at the Symmonds field and will be hosting athletics training clinics to improve our learners' athletic skills. George has shared his skills at Paul Roos Gymnasium and Stellenbosch University and has also represented South Africa in Decathlon. Thank you to the parents who have contributed to making this possible.

We are looking forward to hosting our Zonal Gala on Thursday, 10 November from 3pm and your support will be greatly appreciated. We have only a few team swimming days left so please encourage your child to attend these sessions.
